

# Screened Overflows -

Ranges to suit:

- Direct to tank fitting for new & existing tanks
- In-line to suit fitting within or as an end addition to existing pipework

purewater  
storage Ltd

Part No.	Size	Material	Fit to Pipework
<i>Screened Overflows - to suit tank body</i>			
R30	22mm (or 3/4")	HDPE	Compression
R30E (extended)	22mm (or 3/4")	HDPE	Compression
H28	28mm (or 1")	HDPE	Compression
R40	35mm (or 1.1/4")	HDPE	Compression
R40E (extended)	35mm (or 1.1/4")	HDPE	Compression
R45	42mm (or 1.1/2")	HDPE	Compression
R45E (extended)	42mm (or 1.1/2")	HDPE	Compression
R54	54mm (or 2")	HDPE	Compression
R67	67mm (or 2.1/2")	PVC	2.1/2" Female plain socket
R76	76mm (or 3")	PVC	3" Female plain socket
R100	100mm (or 4")	PVC	4" Female plain socket
R150	150mm (or 6")	PVC	6" BSP Female
R200	200mm (or 8")	PVC	8" BSP Female
<i>In-Line Screen Units to suit existing pipework - compression fitment</i>			
RWILF	22mm (or 3/4")	HDPE	Compression
HWILF	28mm (or 1")	HDPE	Compression
SWILF	35mm (or 1.1/4")	HDPE	Compression
TWILF	42mm (or 1.1/2")	HDPE	Compression
ZWILF	54mm (or 2")	HDPE	Compression
<i>In-Line Screen Units to suit existing pipework - EPDM sleeve fitment</i>			
SSU.28	28mm (or 1")	HDPE	EPDM sleeve over-fit
SSU.35	35mm (or 1.1/4")	HDPE	EPDM sleeve over-fit
SSU.42	42mm (or 1.1/2")	HDPE	EPDM sleeve fit-over
SSU.54	54mm (or 2")	HDPE	EPDM sleeve fit-over
SSU.67	67mm (or 2.1/2")	PVC	EPDM sleeve fit-over
SSU.76	76mm (or 3")	PVC	EPDM sleeve fit-over
SSU.100	100mm (or 4")	PVC	EPDM sleeve fit-over
<i>In-Line Screen Units to suit existing pipework - flanged fitment</i>			
FSU.22	22mm (or 3/4")	PVC	NP 16 flange
FSU.28	28mm (or 1")	PVC	NP 16 flange
FSU.35	35mm (or 1.1/4")	PVC	NP 16 flange
FSU.42	42mm (or 1.1/2")	PVC	NP 16 flange
FSU.54	54mm (or 2")	PVC	NP 16 flange
FSU.67	67mm (or 2.1/2")	PVC	NP 16 flange
FSU.76	76mm (or 3")	PVC	NP 16 flange
FSU.100	100mm (or 4")	PVC	NP 16 flange
FSU.125	125mm (or 5")	PVC	NP 16 flange
FSU.150	150mm (or 6")	PVC	NP 16 flange
FSU.200	200mm (or 8")	PVC	NP 16 flange
FSU.250	250mm (or 10")	PVC	NP 16 flange
FSU.300	300mm (or 12")	PVC	NP 16 flange

- Screened overflows to suit new and existing tanks.
- The fitting of overflows ensures that the new tanks comply with current water regulations and can be used to help existing tanks achieve compliance.
- The standard overflow range are suitable for fitting to the wall of the tank.
- For retro-fit screens to fit within existing pipework also see our in-line screen units.
- Ranges are available for copper & thin wall plastic pipework and also for galvanised steel pipework with either sleeved joiner to slip over the pipework or flanges to bolt within the pipework.
- All screen mesh elements are removable to allow inspection and cleaning.
